

CCS METALLIC PIGMENTS

DESCRIPTION

CCS Metallic Pigments are special effect pigments specifically designed to mimic the natural look of stone and rock through pearlescent and iridescent light scattering effects. When the metallic particles are mixed with epoxy the coating shimmers and flickers and reflects light to provide a stunning and attention-grabbing spectacle.

CCS Metallic Pigments can be blended with CCS Duratrac HB Epoxy or CCS Ultra Epoxy HB.

CCS Metallic Pigments are no to low odour, contain no VOC, are extremely concentrated and intense and designed for internal use. CCS Metallic Pigment packs are ready to use and do not require mixing.

FEATURES AND BENEFITS

- Natural stone appearance
- Completely customisable
- Extremely durable coating
- Easy field blending and installation
- Multi-dimensional colour hues
- Suitable for many environments
- Stylish, unique design
- Low maintenance system
- Economical and cost-effective

STORAGE

The CCS Metallic Pigments should be kept in a dry, cool location. The shelf life of the product in an unopened original container is 18 months.

For further information consult the Safety Data Sheet and read the product label carefully before use.

Safety Data Sheets are available from www.concretecoloursystems.com.au or by calling 1800 077 744.

User Responsibility-Product Selection and Compatibility

CCS warrant that their manufactured product is free from defects as well as being suitable for the purpose for which it is intended as long as it has been used and applied in accordance with the most current Technical Data Sheet from CCS.

In practice, differences in materials, substrates and actual site conditions require an assessment of product suitability

Further, combinations of products that form a total system are often required to service particular applications. Due to the multitude of products available to service an application, only products from the CCS system of products must be used in combination with this product to ensure it will be suitable for the purpose for which it is intended.

The product must also not be mixed or used in combination with any other product which is not a product supplied by CCS.

PLEASE NOTE

The information given in this data sheet is based on our current knowledge of the product when properly stored, handled and applied. We cannot guarantee that the product will be suitable, effective or safe when used for any purpose other than its stated uses.

To the extent that it is lawful, we exclude warranties implied by law and limit our liability to the cost of replacing the product. We accept no responsibility for loss or injury caused by improper use, inadequate preparation, inexpert or negligent application, or ordinary wear and tear.

Service or advice given by our staff should not amount to responsibility for the project - since the owner, or their contractor (and not River Sands), is responsible for procedures relating to the application of the product.
